 Fuel Tank Replacement

Description of Warranties

Aluminum Fuel Tanks:

Aluminum fuel tanks will be warranted for 24 months from the date of purchase against weld defects, defects in material, and leakages resulting from manufacturing material or weld defects.

Note:

Discoloration, staining, and damage resulting from customer modification and road hazard (debris) damage will not be warranted. This warranty does not apply if the fuel tank is exposed to abnormal conditions or corrosive environments (including, but not limited to, highway de-icing chemicals or unapproved cleaning agents). It also does not apply if the fuel tank is incorrectly installed on the truck (including, but not limited to, over-tightening straps, cross-threaded fittings causing finish damage).

Fuel tanks will be warranted only for the Highway Original selling price. All warranties apply to the original purchaser (dealer or distributor).

Instructions

Please fax completed form, along with end customer receipt and photograph(s) of fuel tank defects to 270.827.6822. You may later be requested to return the fuel tank for evaluation. Highway Original will reimburse shipping charges if the claim is accepted. If accepted, reimbursement or replacement will be sent within 30 days of acceptance of claim.

To be completed by Highway Original
