Truck Bumpers

Highway Original is proud to offer a custom fit bumper program for the commercial vehicle aftermarket.

Highway Original has raised the standard of medium and heavy duty truck bumpers by providing an aftermarket bumper program manufactured to OEM standards by an established commercial vehicle component supplier.

A diverse bumper program

Highway Original features a custom fit bumper program comprised of popular bumpers in a variety of materials, end styles, cut outs, road light cut outs, and customizable logo cut outs.

Backside coating

Highway Original backside coats every bumper with an acrylic latex primer to add an extra layer of protection against corrosion. The backside coating provides excellent corrosion resistance, passing a 1,000-hour salt spray test with minimal scabbing.

Manufactured in the U.S.A.

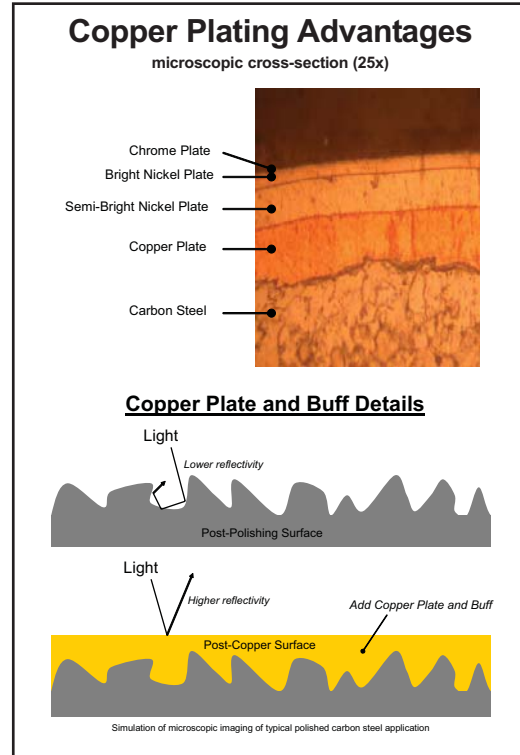

That translates into a short lead time for all your bumper orders.

Quality material options

- Chromed Steel
 - 1 year warranty*
- Painted Steel
 - 1 year warranty*
- Stainless Steel
 - 5 year warranty*

Enhanced finish

By specifying optional copper plating, Highway Original will include an extra copper buffed underlayer that enhances the reflectivity of the chrome, resulting in a bumper with an ultra reflective finish.

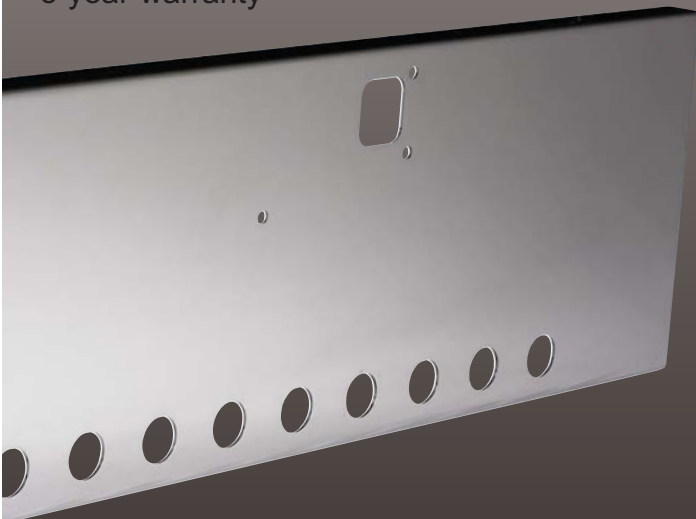

Build your own

Use the Spec-a-Bumper (next page) to create a bumper to custom fit your specifications, or visit our online configurator at www.highwayoriginal.com to custom build as many bumpers as you need.

* Go to www.highwayoriginal.com for warranty details.

Spec-a-Bumper

Part Number Identification

Use the codes from the boxes below and fill in the spaces on the right to specify a Highway Original bumper. An interactive bumper configurator is also available online at www.highwayoriginal.com. Please confirm bumper availability by calling 1.866.959.6787 or 1.812.962.5111.
